

1919/13 Energy .17 U-Value Glass Block **AVAILABLE NOW!**

Available in both Wave and Clarity patterns.

Engineered for unparalleled performance, our Energy Block is redefining industry standards. Featuring an exceptional U-Value of just 0.17 and an impressive Solar Heat Gain Coefficient (SHGC) of 0.29, this block not only minimizes heat transfer but also expertly controls solar heat gain. The result? Consistently comfortable indoor temperatures and a dramatic reduction in energy costs, making it the ultimate choice for energy efficiency.
